ÁLVARO BARCHÍN RUBIO

Software Engineer

Alcalá De Henares, Madrid | linkedin.com/in/alvarobarchin | github.com/alvarikoke99 | alvarobarchin.work@gmail.com | 601161745

Software Engineer with a focus on backend architecture and DevOps. Currently expanding my work with RAG systems and AI applications, with a proven track record of automating AWS production workflows and CI/CD pipelines.

WORK EXPERIENCE

THOUGHTWORKS

Software Engineer | Jan 2025 - Current

- Architected and led the end-to-end development of an AI RAG system using ChromaDB and FastAPI, integrating data from Jira, GitHub, and ServiceNow to create an internal knowledge base.
- Deployed a full-stack AI solution with a Vercel WebUI and AWS infrastructure, implementing automated security and code quality scans for enterprise-grade reliability.
- Engineered the production path for a major automotive sales application using Kotlin, leveraging Datadog, Kafka, and AWS to enhance system observability and debugging.

VODAFONE

Backend Software Engineer | Jan 2023 - Dec 2024

- Developed secure REST APIs using Python (FastAPI) and Java (Spring Boot) with JWT/OAuth2, optimizing execution speed by 30%.
- Orchestrated containerized deployments via Docker, improving deployment efficiency and reducing system downtime by 40%.
- Built advanced observability stacks using Fluentd, Loki, and Grafana for log parsing and real-time issue tracking.
- Designed CI/CD pipelines in Jenkins, managing GitHub repositories to ensure code consistency and streamlined delivery.

AFRONTA QUALITY SOLUTIONS, S.L.

Backend Junior Software Developer | Apr 2021 - Dec 2022

- Developed a microservices-based POS backend for a multinational retailer using Java (Spring Boot), ensuring high scalability and maintenance.
- Led the development of an Android scanning application, handling the full lifecycle from requirement analysis to successful deployment.
- Boosted operational efficiency by 15% through the full-stack development of an employee management system using Java (JSF) and MySQL.

TELEFÓNICA

It Support Technician | Sep 2020 - Oct 2020

- Deployed and configured enterprise applications on Android tablets, ensuring smooth internal installation processes.
- Managed inventory and led a deployment team to ensure on-time project completion.

EDUCATION

UNIVERSIDAD DE ALCALÁ

Computer Science | 2017 - 2022
